CSA Membership Form

Today's Date: _____ **Share Season:** Fall/Winter/Spring 2014-2015

By subscribing to Marando Farms CSA, you understand fully that the share you receive each week is based on availability of harvest. CSA (Community Supported Agriculture) is a way for the public to buy locally grown food direct from the farmer, to know your farmer, and to support small farms in your community. Being part of a CSA is the purchase of a share, much like buying stock. These share purchases are what help provide the funds needed to grow and harvest crops. Much like shareholders, CSA members share the risks with the farmers. You understand that there will be some weeks where you may receive more and some where you may receive less. We will do our best not to let this happen, but we are bound by nature, as are our farm partners. You also understand that we are not responsible for Acts of God and that by subscribing you are willing to accept the conditions the farmers are faced with as part of your own risk.

Vegetables / Fruit Preference: Each week the vegetables/fruits in your box will vary based on harvest. Also, you will only receive what is available locally from wither us or a trusted farm. Vegetables/Fruits don't always look pretty when they come direct from the farm. We are not a produce store, so you do not get to choose what goes in your box each week. However, you may list items you may have allergies to, and we will try to place these items with other produce. (If you are a picky eater or do not like trying different things, then this is probably not the best way for you to buy produce.)

Do you have any food allergies? Yes or No

If yes, please list:

Farm List / Recipes: Each week in your basket you will receive a Farm List which provides the items found in your box that week along with the name and location of the farm it was grown on. We use farm partners to help bring in produce that we cannot grow ourselves, or to help supplement when harvest is low. This still does not guarantee full variety of baskets each week because all farmers could be wiped out at one time. You will also receive recipes or how to's for the items that are not of typical use. These are just suggested items and you are welcome to look up your own information. Also, please feel and encouraged to submit your own favorite family recipes to share with all the members.

Farm Growing Practices: Marando Farms and its partners work hard to grow the fresh organic or pesticide free, Non GMO veggies we provide to you. We at Marando Farms use only safe natural growing practices, however, we work with certified organic growers and naturally pesticide free growers.

Ordering Extra Items: You will receive a list of items you can order in addition to your baskets each week. These items are offered at a special rate for members only. You will need to follow the instructions given for placing these orders. All orders must be paid in advance.

By signing below, you acknowledge that you have read and understand the above information. You also confirm that you are purchasing a share in our CSA.
